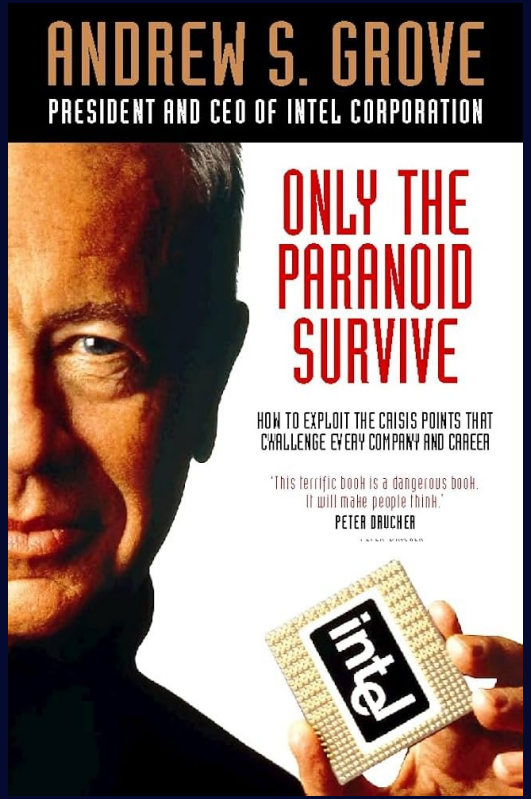
WHY?

What would a good leader do?



What would a good developer do?

Empathy

“This process change is a waste of time. It’s just more red tape, it’s causing more lag times, it’s going to impact our deadline – the client won’t be happy, and it’s all easily avoided!”

"How long is the ideal pause?"

MIT Sloan School of Management found that pausing for just 2 seconds before responding in a conversation increases trust levels by 40%

"In a high-trust relationship, you can say the wrong thing, and people will still get your meaning. In a low-trust relationship, you can be very measured, even precise, and they will still misinterpret you."

-Stephen M. R. Covey
